## THE PATHLIGHT COMMUNITY

All of Pathlight's programs have been very active during the pandemic, continuing to provide essential supports and information and resources to the families within our network. Family Empowerment is the Pathlight Program Highlight this week.

### Pathlight Program Focus: Family Empowerment

**Family Empowerment** is the Family Support Center for Hampshire County. They have continued to support a large network of families in the county, as well as share information and resources

with many more families since the onset of the pandemic. They are now more creative than ever in keeping up contact with families. Family Specialists have always connected where it is the most convenient and safe for families. When socially distant, in-person, exterior visits were not possible or recommended, they've expanded into Zoom virtual family meetings as a way of maintaining support, along with phone calls and emails.

Last spring, Family Empowerment made a very quick transition from offering in-person trainings for families and professionals to a full schedule of Zoom webinars. They continued to partner with their network of expert presenters from across the state to meet the informational needs of the community. The virtual format has proven to be especially helpful to participants who had difficulty attending previous in-person workshops due to child care obligations or very busy schedules. Check [here](#) for more information about upcoming webinars and to view PowerPoint presentations and meeting recordings of past webinars.

Family Empowerment also supports The Special Needs Family Alliance, a welcoming group of parents and others who care for a loved one with a disability in the Franklin county area. The group has continued to meet twice per month on Zoom and has also invited expert speakers on special interest topics to the meetings. If you are interested in joining the group, view the flyer [here](#) for more information.

The situation of many families has changed during these difficult times, and those that did not previously qualify for the support of resources such as SNAP, MassHealth,

housing programs, and fuel assistance are now in need, and Family Empowerment is there to help in any way possible.

Family Empowerment believes *Knowledge is Power* and is available to help you navigate the New Normal for you, and for a family caring for someone with special needs. Email the team at [familyempowerment@pathlightgroup.org](mailto:familyempowerment@pathlightgroup.org) if you have questions about their services, or visit the Family Empowerment [website](#).

## MASSACHUSETTS STATE UPDATES

**Stop The Spread** testing sites are now available across the state. You do not need to have symptoms to access the free tests. Holyoke and Springfield have sites for western Massachusetts.

**Recommendations** on how to celebrate the holidays with your loved ones who reside in a care setting such as a nursing home, residential treatment program or group home, from The Executive Office of Health and Human Services.

The Department of Developmental Services is encouraging everyone in the DDS community (individuals,

family members, providers, and staff) to get a flu shot this season. Visit the [DDS Flu Resource page](#) for more information. November 18

- [Limits on gatherings](#), November 2
- [Stay at Home Advisory](#), November 2
- [Early Business Closures, Revised Gatherings, Mask Orders](#) Announced to Disrupt Growth of COVID-19 Cases, November 2
- [Centers for Medicare and Medicaid Toolkit](#). The 66 page booklet features examples of how states have expanded home and community-based services and decreased reliance on institutional care. November 2020

Darlene.Giroux@PathlightGroup.org, 413-731-4554

**Suzanne Laba**, Program Director,  
Suzanne.Laba@PathlightGroup.org, 413-731-4649

**Lakesha Ruth**, Program Director  
Lakesha.Ruth@PathlightGroup.org, 413-731-4541

### FAMILY BASED LIVING PITTSFIELD

**Catharine Dollase**, Program Director,  
Catharine.Dollase@PathlightGroup.org, 413-443-4780 x11

## New Airflow videos show why masks with exhalation valves do not slow the spread of COVID-19.

You can do your part to slow the spread of COVID-19 by wearing a well-fitting face mask that does NOT have an exhalation valve, and this video shows why.

Masks that the CDC recommends for slowing the spread of the novel coronavirus are mainly meant to protect people other than the wearer by catching exhaled droplets that might contain the virus. But masks with exhalation valves allow that breath (and its respiratory droplets) to escape unfiltered.

With advanced imaging techniques, NIST researcher Matt Staymates gives you a look into the stark difference between masks with and without valves (from the NIST website).

## How can we help you?

Contact any of us at the Pathlight programs and we will do our best to help you with your requests and needs. Email [info@pathlightgroup.org](mailto:info@pathlightgroup.org), [familyempowerment@pathlightgroup.org](mailto:familyempowerment@pathlightgroup.org) or [autismconnections@pathlightgroup.org](mailto:autismconnections@pathlightgroup.org). If you prefer to call, the numbers for program managers are listed in our CONTACTS section, and the linked full team member team list.

Life can be tough,  
but so are you,  
and we can help.
